Dosthill Colts Football Club social media guidelines

The following guidance is provided not as an obstacle but ^{to} support club members to manage our safeguarding responsibilities effectively. It aims to ensure children, young people, coaches, referees and adults in a position of trust are not subjected to improper online behaviour or improper allegations.

If you decide that the most effective way of communicating to young people is via a social networking site then the club strongly advises the set up of an account in the name of the club and explicitly for use by named club members, parents and carers solely about football matters e.g. fixtures, cancellations and team selection.

Coaches, referee mentors, club officials and others in a position of trust in football need to act responsibly both on and off the field and this includes the use of electronic communications.

As a general principle coaches, managers etc should avoid using social networking sites as the primary way of communicating with players. Children and young people should be advised by their coaches, parents/carers and CWO to always tell an adult they trust about communications that make them feel uncomfortable or where they've been asked not to tell their parent/carer about the communication.

The following is best practice in relation to social networking.

Do

- ensure all the privacy settings are locked so that that the page(s) are used explicitly for club or league matters and are not used as a place to meet, share personal details or have private conversations

- nominate a club/league official to monitor the club/league social networking page regularly and remove access for anyone behaving inappropriately
- make sure everyone within your club knows who is responsible for monitoring the content of the social networking areas and how to contact them
- provide all users with The FAs best practice guidance on using social networking sites
- gain written parent/carer permission before access is given to U18s
- inform the CWO if you have received inappropriate communications online, keeping a record of any inappropriate, threatening or offensive material as this may be needed as evidence. [L]
